[Correspondence of the Whig & Course]

Washington, Jan 25, 1839 The Senate did not sit to-day, having yesterday adjourned over until next Monday"

The Liouse did nothing but attend to some of the bills on the private calendar.

Of course, you will not be surprised, nor surpriso your readers, when you hear, and tell them, that this has not been a day in Washington, fruit ful of interesting record,

We are without any focal of interesting news here. The recements be a site about Commo dore Elliot at last, and if-any excrescence can be removed, under this administration, from the body politic, this officer stands a prominent chance ___

The Madisonian has a curious fleader' under the head of " Secretary at War," in this day's columns, which reiers to some destruction ofrecently in the library of Congress and which I recommend you to lay before your readers, reone of the most surrous documents of the day Yours truly, &c.

CONGRESS In the Senate, on Monday, in compliance with the oall of the Senate, the Pres. "ident communicated the correspondence between this government and that of Great Britain, which has been had since the last session of Congress, in relation to the North Eastern Boundary,

Mr Benton's bill for the repeal of the Salt tes was teken up, and Mr Davis went at length into a consideration of the subject, -

In the House of Representatives, Mr Reed offered a resolution proposing that on the second Monday of February, the House proceed to the choice of a printer for the twenty-sixth Con-

Mr Fletcher offered the following resolution, i bich was considered and adopted

Resolved, That the Secretary of the Navy be directed to furnish this House with certain charge re heretofore preferred by Samuel Etheridge, of Mavenchusetts, against Capt J D Elliott, of the Navy of the United States, and to turnish the reasons, if any, why the Department has not heretofore ordered a Court of Inquiry to ail apon wild charge, against said Elliott

Mr Tilhnghast, on Jeava given, introduced a bill to allow drawback of dulies on imported hemp, when manufactured into cordage and ex-Ported, which bill was referred to the Committee of Ways and Means, and ordered to be print,

Mr Adams presented the following resolution Resolved, I hat every inember of the House of Representatives of the United States ought, before taking his seat therein, to produce at the clerk's table, or to deposit in the clerk's office, the endentials by vicine of which he claims his seat, and in all cases of contested election, no resignation of Gen Humphreys member ought to be permitted to vote until the House, upon a report from the standing committee of elections, or by the vote of a majority of the members present, being a quorum of the House, shall have decided which of the claim ants is entitled to the contract scat.

- [From the Madisonian] THE SECRETARY AT WAR

In any thing that we have enid or may say re specting the individuals at the head of the affairs of the War, Navy, or I reasury Departments. we state expressly that it has been, and ever will be, our aim to confine ourself altogether to circumstances or FACTS connected with or having bearing on their official station, or with the per formance of their otheral duties. Of their pri wate life, history or affairs, or of those of any

The gentlemen who now fill these high and important stations, are the counsellors and supporters of the Chief Magistrate of the Union, who has declared he will "first or swill" in his persevering attempts to establish certain measures deeply affecting the North

Regarding those measures as vitally hostile to the great and important interests of the country we have and shall continue to use all | ... | ul and and proper means in our power to defeat them and the individuals under whose auspices they are attempted

Since our last geminisciences connected with London Spectator, large octavo, sixteen pages | the public history of Mr Poinsett, our recelled tion has been refreshed by the perusal of a por tion of the history of the internal dissensions and revolution in Chili, one of the Spanish provinces of South America, in which his name is mentioned | the following is an extract from the work which has fallen under our observa.

> " But the Carreras, though by their impeu dence they often forwarded the royal cause, or wurt that of the patriots, were not traitors, at least in that sense. They immediately marched South, and in the very beginning of April, the head quarters of the army were at Paica. All the officers which their dissensions had cushiered or rusticufed were recelled Mackenna was Quartermaster General. O'Higgins comenanced all the troops of the Bouth, and the Na tive Militia a recful body in such a country, being ment expect benkensen, and armed with lances liftens feet long. I'm desp and rapid. Maule formed the line of defence, where very tords are not always practicable for here,neh less for infantry. A person named Peinsett, ac

ir altributable to him "

The person named by the historian, in the above extract, is the present Secretary at War The evidence of the fact is given in the Biography of Mr Poinsett, contained in the third and fourth numbers of the Democratic Review At page 445 at that work, it is stated that "a proposal was made to him (Mr. Poinsett) to repair to South America to sacertain correctly the state.

> Cork Many persons see corks used daily, without knowing whence come these exceeingly useful materials. Corks are cut from large slabs of the bark of the cork tree, a species of oak, which grows wild in the countries of Europe. The true is somerally divented of its back at about fifteen years old, but before stripping it off the tree is cut down, as m The case of the eak. It is taken while the tree is growing, and the operation may be repeated every eighth or ninth year, the quality of the cork continuing each time to improve as the age of the tree in creases. When the bark is taken off, it is singed in the flame of a strong fire, and after being soaked for a considerable time in water, it is placed under heavy weights in order to render it straight. Its extreme lightness, the ease with which it may be compressed, and its elasticity. are properties so peculiar to this substance. that no efficient substitute for it has yet been discou-

The valuable properties of Cork were known to the Greeks and Romans, who employed it for all the purposes for which it is used at present, with the exception of stopples, the antients mostly employing coment for closing the mouth of bottles or of vessels. The Egyptiniis are eaid to have made coffins of cork, which, being sprend on the inside with a resinous substance, preserved dead bodies form decay with modern times, cork was not generally used for stopples to bottles till about the close of the 17th century, wax being till then chiefly in use for that relief time for the Train to leave Bangor in the furpose. RAIL-ROAD BRIDGE.

TO LUMBERERS, &c. PROPOSAUS will be received by the subsembers, will the 15th of February next, for furuishing the materials and labor for creeting a Rati-Road Beilge over Merrimack River of Haverhill, Mass. The bridge is to be constructed upon the principle of "Town's Patent Trellis Suspension Bridge," and to consist of five spans of 170 feet each, resting on four piers and two abutments of Stone masoury. The bottom of the wood work will

be 26 feet above low water mark.
The masonry, which must be built according to plans and specifications formshed by the Engineer, will amount to about 3300 cubic yards; about 1500 yards of which will be dimension stone. These last will be rough split, and have their beds and builds dressed to insure a fair hearing. They will be laid

in good hydraulic.cement.

The superstructure, which is also to be built according to plans and particular specifications to be furnished by the Engineer, will contain about 500,-000 fact of White Pinc Lumber, which must be sound, and free from shakes and large knots; and must be cut according to dimensions to be lumish-

ed on application as above. Separate proposals will be received for the following divisions of the work 3.1: For furnishing the dimension stone by the cubic yard, dressed as above stated; and debiered, on the ground in the places to be designated by the subscribers. 2. For furnishing the rough stone by the cutic yard; to he delivered as above. 3. For laying the abunnents and place by the rolling yard - the company furnish ing the line for the cement. 4. For furnishing the Lumber per M. delivered on the hank of the River ing 19,000 White Oak Treenails according to a-bill Blue, brown, green white glazed Dinmer Sets, which will be furnished. 6. For building and completing the word work of the Bellpleting the wood work of the Bridge according to the plans and specifications.
The proposals must state in what time the several

livisions of the work can be accomplished. Other things being equal, the earliest time will be preferrul as the agents of the road are designus of com-

pletting the work with all convenient despatch.
Plant of the work may be seen, and particular specifications furnished on application to the Ergineer at Havertill, and further information may also be obtained by applying to the President of the Company at Audobes. HOBART CLARK,

VALUABLE CERTIFICATES. EVAN'S CAMOMILE AND APERIENT PILLS.

THE DIFFERENCE. T cannot be denied that whilst many medicines which are recommended to the public, have not even the negative merit of harmlessness, there are others which it would be great mustice indeed, and saicidal prejudice to involve untried, in a common condemnation. And when a medicine comes en-dorsed with all the great names that have advised the annaly of the medical profession, and warranted by the seal and signature of long and uniform success, its proprietor makes no unreasonable demand upon the public confidence, when he claims for it a

superior consideration:
The Camomile Preparation by Dr. Wm. Evans is underiably entitled to this enviable distinction, for while no medical authority in axistence condemns it, every medical practitioner that is acquainted with it, freely acknowledges its pre-emment yirtues and that the latter should do so in opposition to their personal interests, must be attributed either to their conder and love of truth, or to their unwillingness tofly in the face of all observation, and the testimo-

ny of thousands. Dr. W. Evans does not pretend that his Camonile Tonic Pills will cure all diseases. He trankly and conscientionally admits that they will not. He no claim to the discovery of the "Philosopher's Sione," and wighes nobody to believe that he sells the "Elixir of Life," but he does say, and he does believe, and he can prove, that in, debility and im-paired constitution; in Nervous diseases of all kinds; in weakness of the digestive organs, in incipient consumptions, whether of the lungs or the liver; in the dreadful debility occasioned by the use of purgatives; in palsy, theumatism, (more expectally) in the sickness incident to mothers, and to fe-males of claxed gerves; in every-care of delirium tremens, or that disease which is brought on by intomperance in the westched horrors of hady and mind which accrue from occasional inebrity; loss of appetite, langor, motaneholy, pains in the head, imbs, or side; in corrupt sallow, and uncomely complexion, caused by the bad state of the fluids in all these races, and in others mentioned to the hills of directions given with his medicines, HE nors SAY, that the Camomile Tonic Pills, interchanges occasionally with his Aperient Paulity Pills, (the best known) which are sold with them, will effect mmediate relief; and if used but for a fair period of trial a perfect cure. This much is placed beyond a doubt by daily testimentes which would be given on oath, and for this much Dr. W. Evans can conscientiously request confidence. He therefore need only add that his Camomile Tonic Pills, together with his excellent Family Aperient Pills, can be obtained wholesale or retail at No. 7. Division street near Chatham coupre N. York and his sythorized agents in town and country:

Other and more conclusive demonstrations of the efficacy of Dr. Evans!
